

Inyourfacelearning LLC Training Academy Extended Reality XR

What

- Combine the best educational/ skills development content with best immersive technology to deliver impactful training.
- Make the solution available to individuals where they are located.

Why Immersive Technology

- Increases participants engagement and understanding of the activity

Educational and development content is available.

Cost and ease of use of technology has improved.

How

Immersive technology and content is integrated with class-based activities.

Some content can be delivered more impactfully and skills can be reinforced via using interactive, immersive technology.

Examples

[David Scurlock UW Parkside 10 28](#)
